SPECIAL CONDITIONS FOR
VIRTUAL PRIVATE SERVER (VPS)

The Supplier provides different categories of server. The hardware and software configurations, and the different tariffs applicable, are specified on the Supplier'swebsite at wlservices.org

Resource Abuse

Resource abuse consists of any activity that consumes enough system resources to affect other clients and/or our equipment. In such cases, client's server will be stopped/suspended, client will be notified. Client is responsible of fixing such issues.Repeated resource abuse will result in server termination without any compensation.

CPU Usage

Every vps comes with a number of CPU cores that client has access to. The said CPU cores are not dedicated to any VPS. Client may not use more than 85% of one CPU coreper process thread for more than 10 minutes. Client may not use 100% of one CPU corefor more than 2 minutes. When CPU abuse is detected by our automatic programs, process will be killed and/or VPS stopped/suspended, and the above Resource Abuse policy will be enforced.

Torrents/Bittorrent trackers

Torrents/Bittorrent trackers are stricktly forbidden to be ran/storred on any of our VPSservers

TOR/TOR Network/JonDonym

TOR/TOR Network/JonDonym are strictly forbidden to be ran/hosted on *ANY* of ourservices.

IRC/Internet Relay Chat Networks

IRC is allowed to be ran on our services at your own risk. VPS will be terminated ifserver is found to be involved in DOS/DDOS on first occurrence.
